

Affordability has never been so flexible.....

Our new, fully web-enabled, scalable PACS solutions help transition your practice into a safe, filmless environment. As a scalable PACS solution that supports all your current and future imaging needs, Clarity PACS offers a web-enabled solution to enhance your workflow. Customization ensures that each physician and facility can maximize the possibilities in Clarity PACS. Secure, affordable and feature rich are standard with all Clarity PACS systems.

Questions answered with ease.....

Clarity PACS is designed to provide you with the tools you need at your practice every day. Our in-house software development and customer support teams are just a phone call away. Clarity PACS offers remote monitoring to ensure maximum uptime. Also our remote configuration capability will allow you to set up and begin using your system with ease and comes with one year of free service and support.

Our promise

iCRco has been a complete solution provider to the digital radiography professionals for over 18 years. Software development has been a vital part of iCRco's success during this time. Focusing on our core competencies we developed Clarity PACS to continue our legacy in software development and bring you the most affordable PACS solution in the market today.
